WORK EXPERIENCE

Software Engineer Techverx

12/2020 - Present

Lahore, Pakistan.

Achievements/Tasks

- Code Debugging & Front-end Architecture : Troubleshoot interface software and debugged application codes to improve functionality and performance. Developed and implemented front-end architecture to support user interface concepts with 100% accuracy.
- Performance Optimization & Features Development: Monitored and improved front-end performance. Developed the latest user-facing features using Reacts and built reusable components & front-end libraries for future use. Optimized components for maximum performance across a vast array of web-capable devices and browsers.
- Application Development & UI Designing: Coordinated with the development team to discuss user interface ideas and applications. Reviewed application requirements and interface designs to ensure compatibility with existing applications.
- Developed new team members with react for a new feature, improving customer adoption by 20% leading to increased the revenue.

Associate Software Engineer Takhleeq

07/2020 - 11/2020

Lahore

Achievements/Tasks

- Coordinated with the development team to discuss user interface ideas and applications.
- Tested react components to ensure components are working as expected and catch bugs early in the development process.
- Design multiple dynamic and browser compatible pages using HTML, CSS, Javascript, Material-ui, Ant-D.

EDUCATION

Bachelors in Computer Science University of Central Punjab

09/2016 - 07/2020
